QUAID E AZAM MUHAMMAD ALI JINNAH

With faith, discipline and selfless devotion to duty, there is nothing worthwhile that you cannot achieve.

LIAQUAT UNIVERSITY OF MEDICAL & HEALTH SCIENCES (LUMHS), JAMSHORO

MESSAGE OF VICE CHANCELLOR

It is with great pleasure that I address this message to the new generation of aspiring students seeking higher education. Liaquat University of Medical and Health Sciences (LUMHS) stands as a proud pioneer in Pakistan's medical education sector. Established in 1881 as an institute and later re-organized as a medical college in 1966, LUMHS achieved the esteemed status of a Medical University in 2001. Over the years, our contributions to the medical profession have been immense, and we continue to lead the way in shaping healthcare education.

LUMHS's journey has evolved beyond medical degrees. Recognizing the growing demand for skilled professionals in allied health sciences, and keeping in view the International Job market we have expanded our academic offerings to include a variety of programs that are highly sought after, not only in Pakistan but globally. These include bachelor's degrees in Pharmacy, Nursing, Physiotherapy, Biomedical Engineering, Molecular Biology and Genetics, along with a range of technological courses, diplomas, and more. Each year, we add new programs to keep pace with emerging fields and industry demands.

Our academic programs are designed with a modern curriculum that meets international standards, placing significant emphasis on both academic excellence and personal development. At LUMHS, we are committed to promoting gender equality, in line with the United Nations Sustainable Development Goal (SDG) 5, offering equal opportunities to both male and female students.

We also recognize the importance of global exposure in shaping well-rounded professionals. To this end, we have established strong partnerships with universities in the United States, the United Kingdom, China, Turkey, and Azerbaijan, offering our students opportunities for international collaboration and learning.

At LUMHS, our primary focus is on nurturing the personal growth of each student. We provide an exceptional learning environment, highly qualified faculty, a modern curriculum, and state-of-the-art facilities. Every student is treated as an individual, with their personal strengths and aspirations guiding their educational experience. As you explore this prospectus, I encourage you to discover the unique academic opportunities, advanced facilities, and the dedicated faculty that make LUMHS a center of excellence. Our team is here to support you every step of the way, ensuring you acquire the knowledge, skills, and resilience necessary to excel in your chosen profession.

I invite you to take this exciting opportunity to become part of our dynamic academic community. As you plan your educational journey, know that LUMHS is committed to providing you with the tools, support, and guidance needed to succeed.

I wish you the best of luck and look forward to welcoming you to our vibrant and thriving community.

Prof. Ikram Din Ujjan
Vice Chancellor LUMHS

22.	Expository Writing
23.	Healthcare Systems & Policies
24.	Healthcare Marketing & Management
25.	Introduction to Nursing Practice

S.No	Subjects
26.	Entrepreneurship
27.	Pakistan Studies
28.	Radiation Sciences & Technology
29.	General Radiology & Positioning Techniques
30.	Fluoroscopy & Radiological Procedures
31.	Mammography & Special Radiological Techniques
32.	Radiobiology & Radiation Protection
33.	Applied Medicine
34.	Supervised Clinical Practice - I: X-Ray, Fluoroscopy & Mammography
35.	Anatomy for Diagnostic Imaging
36.	Computed & Digital Radiography (CR & DR)
37.	Computed Tomography
38.	Magnetic Resonance Imaging
39.	General Surgery
40.	Supervised Clinical Practice – II: CR & DR, CT, MRI
41.	Clinical Sonography
42.	Biostatistics
43.	Scientific Writing & Research Methods
44.	Clinical Pathology and Radiological Presentation
45.	Therapeutic Radiology
46.	Nuclear Medicine
47.	Interventional Radiology
48.	Supervised Clinical Practice IV: Nuclear Medicine, Interventional & Therapeutic Radiology,
49.	Capstone Project

BS MEDICAL LABORATORY TECHNOLOGY (BSMLT)

SCHEME OF STUDIES FOR 4-YEARS

BS MEDICAL LABORATORY TECHNOLOGY (BSMLT)

The following subjects are included in the Scheme of Studies for the four-year degree program under the semester system, which normally consists of 08 semesters.

S.NO.	Subjects	S.NO.	Subjects
1	Human Anatomy	22	Expository Writing *
2	Human Physiology	23	Healthcare Systems & Policies
3	Introduction to Medical Biochemistry	24	Healthcare Marketing & Management
4	Quantitative Reasoning	25	Introduction to Nursing Practice
5	Functional English	26	Entrepreneurship
6	Islamic Studies	27	Pakistan Studies
7	Applications of Information and Communication Technologies (ICT)	28	Hematology
8	Introduction to Medical Laboratory Technology	29	Clinical Biochemistry
9	First Aid & Emergency Care	30	Clinical Bacteriology and Virology
10	Introduction to Medical Equipment & Technology	31	Medical Laboratory Instrumentations
11	Introduction to Allied Health Sciences	32	Molecular Biology
12	Patient Safety & Infection Control	33	Supervised Clinical Practice Biochemistry
13	Social Sciences	34	Chemical Pathology
14	General Pathology	35	Medical Parasitology & Mycology
15	Introduction to Public Health and Epidemiology	36	Scientific Writing and Research Methods
16	Natural Science	37	Biostatistics
17	Arts & Humanities	38	Immunology & Serology
18	Civics and Community Engagement *	39	Blood Bank & Transfusion Medicine
19	Ideology and Constitution of Pakistan *	40	Bioinformatics
20	Understanding of Holy Quran	41	Biomarkers in Disease Diagnosis
21	General Pharmacology	42	Artificial Intelligence in Health Care

SCHEME OF STUDIES FOR 4 YEARS

BS MEDICAL TECHNOLOGY (NEUROSCIENCES)

The following subjects are included in the Scheme of Studies for the four-years degree program under the semester system normally consists of 08 semesters

S.No.	Subjects	S.No.	Subjects
1	Basic Health Sciences	21	Fundamentals of Neurosciences Techniques
2	Professional Ethics & Behavior	22	Anatomical & Physiological Basis of Electroencephalography (EEG Theory)
3	Basic Infections control	23	Introduction to Electroencephalography
4	English	24	Clinical Applications of Electroencephalography
5	Mathematics	25	Introduction to Evoked Potentials
6	Islamiyat	26	Neuropathophysiology (Theory)
7	Biochemistry	27	Neuropathies - Basics
8	General Microbiology	28	Technical and Business Writing
9	Computer Literacy	29	Fundamentals of Electromyography
10	Communication Skills	30	Fundamentals of Nerve Conduction Studies
11	Pakistan Studies	31	Advanced Evoked Potentials
12	General Pharmacology	32	Neuropathies - Advances
13	Neuro-anatomy	33	Clinical & Technical Findings of Electromyography (Theory)
14	Neuro-Physiology	34	Fundamental Techniques of Nerve Conduction Studies
15	Neuro-Pharmacology	35	Intraoperative Neurophysiologic Monitoring (Theory)
16	Principles of Patient Care	36	Sleep Studies - Basics
17	Biostatics	37	Long-Term Electroencephalographic Monitoring (Theory)
18	Physics	38	Role of Electroencephalography in Neonates
19	Understanding of Holy Quran	39	Sleep Studies - Advances
20	Bio-Safety	40	Emerging Techniques of Neurosciences (Theory)

INTRODUCTION

Pediatricians practice in many different settings, including primary, secondary and tertiary care. All need 'specialist' skills pertinent to that work, and thus specialist training. This syllabus seeks to set a road map to aid trainees and supervisors in this quest. It focuses on hospital-based Paediatrics but clearly interfaces with primary and tertiary care.

The purpose of this syllabus is to ensure that those completing common trunk training have excellent communication and interpersonal skills, display paediatric expertise in terms of history taking, examination and performance of procedures, are professional and focused on patient safety and harm reduction, develop leadership and teamwork skills and a commitment to lifelong learning.

Core paediatric training has three key elements:

1. Clinical experience gained from direct patient care, supervised by senior clinicians and based on a clinical curriculum with a focus on excellent clinical skills, sound decision making and the judicious use of investigations. On completion of the training, the candidate should be competent to look after the most common paediatric conditions.
- 2. Professional and ethical practice learnt through mentorship by senior clinicians with a commitment to quality improvement and harm reduction in both the inpatient and ambulatory settings.
3. Academic knowledge and proof of clinical ability as determined by various assessment tools. Trainees will be assessed at intervals throughout the Programme in the workplace. These assessments must be recorded.

Training Programme Requirements:

- Training must take place within a ONE-YEAR training programme.
- There will be 2 semesters (total one year)

Institute of Biomedical Engineering & Technology **2026-2027**

LIAQUAT UNIVERSITY
OF MEDICAL & HEALTH SCIENCES
JAMSHORO

The BS Biomedical Engineering program is designed and delivered under the Outcome-Based Education (OBE) framework, which places primary emphasis on the achievement of clearly defined learning outcomes. OBE is a student-centered approach that focuses on what graduates are expected to know, understand, and be able to perform upon completion of the program. It aligns the curriculum, teaching methodologies, learning activities, and assessment strategies with measurable Program Learning Outcomes (PLOs), ensuring continuous quality improvement through regular evaluation and feedback. This approach enables graduates to acquire the technical knowledge, practical skills, professional competencies, and ethical values required to address real-world engineering and healthcare challenges.

This innovative four-year degree is designed to equip students with a unique blend of skills in both business Information and cutting-edge technology. The Bachelor's in Business and Information Technology program integrates core principles of business management with advanced technological training. This interdisciplinary approach ensures that graduates are well-prepared to navigate and lead in today's rapidly evolving digital landscape.

Throughout the program, students will engage in a curriculum that integrates management theory, organizational behavior, strategic planning, and technological innovation. The program aims to produce versatile professionals who are adept at leveraging technology to solve business challenges and drive organizational success.

Candidates who have passed Intermediate Sciences (Pre-Medical, Pre-Engineering, Humanities and Art) with at least 50% marks or any equivalent examination of any other Board / Body recognized by IBCC, shall be eligible to appear in the Entry Test.
- **BS Clinical Psychology Program (PSY)**

Candidates who have passed the Higher Secondary School Certificate (HSC) Examinations (Pre-Medical Group) or 'A' level (Pre-Medical) secured at least 50% marks in aggregate from any Board of Higher Secondary Education in Pakistan or any equivalent examination of any other Board recognized by Inter-Board Committee of Chairman (IBCC), shall be eligible to appear in the Entry Test

➤ **BS Audiology & Speech Language Therapy (BS ASLT) & BS Occupational Therapy (BS OT)**

Those candidates who have passed the Higher Secondary School Certificate (HSC) Examinations (Pre-Medical Group) or 'A' level (Pre-Medical) secured at least 50% marks in aggregate from any Board of Higher Secondary Education in Pakistan or any Institution from Foreign Countries duly recognized by Inter-Board Committee of Chairman (IBCC), shall be eligible to appear in the Entry Test

FORMULA FOR WORKING OUT OVERALL MERIT

- a) HSSC/F.Sc or Equivalent. (50%);
b) Admission test (50%)

Example:

If a Candidate has obtained the following marks:

a	HSC/A-Level Equivalent marks	660/1100 or 60.00%
b	Entry Test Marks	80/100 or 40.00%

His/her Merit will be calculated as follows:

A	HSC/A-Level Equivalent marks	$60.00\% \times 0.5 = 30.000$
b	Entry Test Marks	$40.00\% \times 0.5 = 20.000$
OVER ALL MERIT OF THE CANDIDATE		$A+B=30.000+20.0000 = 50.000$

- All calculation in percentages will be rounded up to three decimal points.
➤ No deduction of marks for a gap year
➤ In case the overall scores of two or more candidates are equal, the candidate older in age shall be ranked higher in merit for the purpose of admission.

The entry test shall be conducted from the prescribed intermediate syllabus of Board of Intermediate and Secondary Education, Karachi, Hyderabad, Mirpurkhas, Larkana and Sukkur.

ENTRY TEST PATTERN AND SYLLABUS

The entry test will be computer based BCQ type. There will be 100 questions, carrying 1 mark each. There will be no negative marking and un attempted questions will be mark 0.

Time duration of the test is 90 minutes (one of Half Hour)
