

Peer review process

When manuscript passed through TURNITIN, one of the members of Editorial Board is assigned to assess the suitability and format of the manuscript according to the scope of the journal as process referred as "Primary Review". All manuscripts than undergo "DOUBLE BLIND PEER REVIEW" process by 2 subject specialists. The suggestions and objections of the reviewers after blinding are communicated to authors and only when reviewers are satisfied with the response of the authors only then the manuscripts are accepted for publication.
