## Educational Outreach Activities Beyond Campus

### Tailored Lectures in Primary School in Local Underprivileged Community School

Liaquat University of Medical and Health Sciences (LUMHS), Jamshoro, organized an educational outreach activity at a local underprivileged primary school as part of its commitment to community engagement and social responsibility. The initiative aimed to support young students through interactive learning, health awareness, and motivation to pursue education.

During the visit, a group of LUMHS students and faculty members conducted engaging classroom sessions. The team interacted with children, explained basic educational concepts, and encouraged active participation. The students appeared attentive and eager to learn, reflecting the positive impact of such outreach programs.

The activity also focused on promoting a supportive learning environment by guiding students on good study habits, hygiene practices, and the importance of regular schooling. The presence of the LUMHS team created an inspiring atmosphere, as the young learners were able to connect with role models from the medical and academic community.

This initiative highlights LUMHS's dedication to **Quality Education**, as the university continues to extend educational support to marginalized communities. Such outreach activities play a crucial role in uplifting young learners, fostering confidence, and promoting equal access to opportunities for children in underserved areas.

## A session on breast cancer screening to raise awareness about early detection of breast cancer was organized for young girls at Pak-Turk Marif school

For prevention and awareness regarding early detection of breast cancer a a community outreach program organized by LUMHS faculty at Pak-Turk Maarif schools with collaboration of Pinktober Awareness Session

In recognition of Pinktober, the Global Cancer Awareness Month, the Maarif Health & Wellness Club organized an Awareness Session led by Dr. Ambreen Munir Banglani, Head of the Department of Breast Surgery at Liaquat University of Medical & Health Sciences.

The session aimed to educate and empower our female students and staff on the importance of early detection, self-examination, and timely medical consultation.

Together, we stand for awareness, strength, and hope!

## Outreach Educational Activity in a local primary school

### **Outreach Educational Activity: Hand Hygiene Session at Local Primary School**

**Date:** Tuesday, 26th November 2024

**Organized by:** Liaquat University of Medical and Health Sciences (LUMHS), Jamshoro

Liaquat University of Medical and Health Sciences conducted an outreach educational activity at a local primary school on 26th November 2024, focusing on promoting hand hygiene among young children. The session aimed to raise awareness about the importance of proper handwashing practices in preventing infections and maintaining overall health.

A team of LUMHS students and faculty members engaged the children through interactive demonstrations, showing the correct steps of handwashing and explaining when and why it is essential. The activity was designed to be simple, fun, and age-appropriate, ensuring that the children could easily understand and practice the techniques.

The students actively participated, asked questions, and practiced the handwashing steps with guidance from the LUMHS team. The session also emphasized avoiding common hygiene mistakes, keeping hands clean before eating, and after using the restroom or playing.
